

Attorney access to Televisit Corrections

Televisit-Corrections is a web-based system that allows you to securely video conference with your clients in the jail from anywhere a broadband internet connection is available, such as from home or the office.

Our easy to use scheduler automates the process of meeting preparation.

Some of the scheduler's highlights:

- The scheduler enables you to setup your visits hours, days or weeks ahead of time.
- The minimum time before a session can start is 30 minutes.
- Sessions can be from 10 minutes to 3 hours in length.
- Email reminders are sent to you before 10 minutes before a session starts or if a session is cancelled.

Save time and money, you no longer need to travel to the jail.
